## FRAME DESIGN

### Frame Technology

At the core of this race-bred rocketship exists an all new 29er-specific ALUXX SL frameset. Radically FluidFormed™ and using the latest, lightweight co-pivot design, the Anthem X frameset pushes aluminum full suspension bike technology to new limits of weight, strength and performance.

- OverDrive headtube for maximum front end stiffness with no weight penalty
- Integrated PowerCore bottom bracket for superior frame stiffness
- Post-style rear brake mounts for powerful, accurate stopping
- Optimized 29er geometry for steady handling without compromise

\* L (19) & XL (20.5) sized bike with 7" front rotor | \*\* with DT RWS rear skewer
