FRAME DESIGN

Its versatility makes it one of the staples in Giant's performance off-road family. The lightweight ALUXX SL frameset is a FluidForm work of art with all the right angles. Add 4 inches of Maestro Suspension travel and new features like a PressFit bottom bracket for stiffness and a tapered OverDrive headtube for pinpoint steering and you have an off-road bike that's lightweight enough to race and tough enough to rail nasty descents, week in and week out.
