## FRAME TECHNOLOGY

Giant rider Jeff Lenosky, aka the Godfather of Urban Freeride, chooses STP for the gravity-defying tricks that earned him the rep. With butted ALUXX SL alloy tubing, tight geometry, a low saddle height and taller front end, it's just what Jeff needs to stick every landing.

### KEY UPGRADES (OVER STP SS)

- Marzocchi Dirt Jumper 2, 100mm suspension fork
- Truvativ Hussefelt crankset, Howitzer bottom bracket
- SRAM X.4 rear trigger, X.5 rear derailleur
- WTB Dual Duty FR rim/Giant Tracker (f)/Formula (r) hub, wheelset

## FRAME GEOMETRY

Actual Frame Size	Part Number	Head Angle	Seat Angle*	Toptube**	Headtube	Chainstay	Wheelbase	Standover Height***
inches		degrees	degrees	inches	inches	inches	inches	inches
Regular	334550	69.0	74.0	22.0	4.6	16.0	41.6	30.8
Large	334551	69.0	74.0	23.0	5.0	16.0	42.6	30.9

\*Seat angle is actual

\*\*Toptube is measured from the center of the headtube horizontally back to the top of the effective extension of the seattube

\*\*\*Standover height is based on the largest size tire that will fit the bike, not necessarily the included size tire
