FRAME TECHNOLOGY

The distinctive split top-tube design gives Via a character all its own. And it's not just about looks. The tough double-butted chromoly frame tubing means you don't have to pamper it, and clever features like the subtle U-lock holder and bolted wheels (no quick release) show off Via's street smarts.

KEY UPGRADES (OVER VIA 2)

- Shimano Nexus 3-speed internal gearing with twist-style shifter
- Custom rear rack and frame-mounted U-Lock carrier
- Kenda Kwest flat-resistant tires
